

## Sheet Metal Workers Local 25 Vision Program

We are pleased to inform you, beginning January 1, 2022, General Vision Services (GVS) will offer your optical benefits to provide a quality vision plan to all eligible members and dependents. GVS, provides tremendous value at all In-Network locations (such as Cohen's Fashion Optical and America's Best), which leads to more savings with your in-network benefit.

Here's how:

- A choice of 200 frames from the GVS Designer Collection; many covered in full or at a minimal co-pay under the program with a uniform selection at select provider locations in the greater Metro area.
- Freedom of choice – A \$200 allowance for non-collection frames at in-network locations\*
- The following lens options are all covered in full: Tints, Ultraviolet, Scratch Resistant and Polycarbonate.
- A fixed co-payment schedule for many of the popular lens options and treatments in the marketplace such as Anti Reflective Premium Coating and Premium Progressive lenses; leading to significant savings off retail pricing (50% - 60% on average)
- In lieu of eyeglasses, a contact lens benefit that includes a generous \$250 allowance for supplies of contact lenses. Plan contact lenses will be up to a 12 months supply and are offered at select locations.
- 30% off additional pairs of glasses
- Out of Network claims will be covered the same way and will need to be submitted to GVS in 2022.
- Significant savings on Lasik and Hearing services through our National Discount programs.

Additional vision plan information will be forthcoming on or around January 1st.

\*Some frame brands may not be included in the optical program
